

Atrium Library

Affordable, Feature-Rich Library Automation Solution for Schools

Atrium, a 100% Web-based system by Book Systems, is an affordable library automation solution built on a foundation of over twenty years experience in library technology and feedback from over 10,000 customers.

Atrium has many features including:

- Cataloging, circulation, inventory, custom reports, and web accessible OPAC.
- Quick Cataloging for downloading free MARC records from LOC and other libraries.
- Empowering patrons through patron managed renewals, reserves, watch lists, etc.
- Flexible OPAC Themes including over 70 Main and KidZviZ options.
- Centralized or distributed information infrastructure.
- Stress-free cloud technology avoid costly hosting and provides a zero maintenance environment.

Best Support in the Industry

Most importantly, you'll receive the best support in the business, hands down. For Book Systems, it really is all about you. You have your choices and we hope you will give Book Systems the opportunity to earn your trust.

Information at Your Fingertips

Whether your patrons are searching the library card catalog or library staff members are performing administrative tasks, access to Atrium is fast and easy from any computer or mobile device with Internet connectivity. Atrium brings your library resources right to your fingertips.

Atrium Features:

Atrium sets the standard with core library functions and great features for managing your collection, as well as giving your patrons access to the information they need. Below are just a few highlights that Atrium has to offer:

OPAC - New Look and Even More Flexibility

Captivate your patrons with our exciting new OPAC interface! Choose from several layout options and over 70 OPAC design themes to customize your library's catalog. Included are new features like our interactive "What's Hot" carousel, "Featured" items widget, and tabs for easy access to lists, links, etc. Enable your patrons to log into their accounts to create bookbags, watch lists and to reserve or renew materials.

KidZviZ - Card Catalog Interface

Promoting the People, Places and Things visual search index, our cartoon character (named Vizzie) takes kids on an adventure, exploring your library catalog.

Mobile Searching

The mobile app for Atrium gives your patrons instant access to your library collection from their favorite mobile devices. The app works on iPads™, iPhones™, Android™ tablets, Android™ phones, and other mobile devices. Your patrons will be able to:

- Search the library catalog
- View Book Lists
- Manage their account and bookbag
- See "What's Hot!"
- Rate and review items
- Reserve items

Want to know if an item at a bookstore is available at your library? Use our mobile app's "Scan the ISBN" feature! When the item is found, the full details are displayed along with the item status and availability.

Patron Notifications

Atrium gives you the tools to effectively communicate with your patrons. Announce recent library acquisitions, "What's Hot" or upcoming library events. Automatically send email or text notifications for overdue items, holds, and reserves ready for "pick-up" or personalized watch lists, and more.

Digital Content: eBooks and Audiobooks

Finding digital content in the library has never been easier for your patrons. With the Media Search, patrons can quickly search and access all the digital content purchased by the library. Atrium supports eBooks and Audiobooks from a variety of vendors, including Overdrive®.

Quick Cataloging

Catalog with speed and efficiency with Atrium's built-in Z39.50 client. Get instant access to over 20 million free USMARC records from Library of Congress and other Z39.50 server databases.

Impressive Customized Reporting Capability

Atrium enhances your reporting capabilities in as many ways as you can imagine:

- Easily generate pre-configured reports.
- Customize reports by adding, removing, rearranging columns, or applying sorts.
- Filter reports for specific data.
- Create and save report templates for periodic or frequent use.
- Schedule automatic report generation and email delivery for any standard or saved report templates.
- Export report data for use in other programs.

Supplemental Modules, Services and Programs
