

# Teacher Evaluator

## Teacher and Staff Evaluations Made Simple

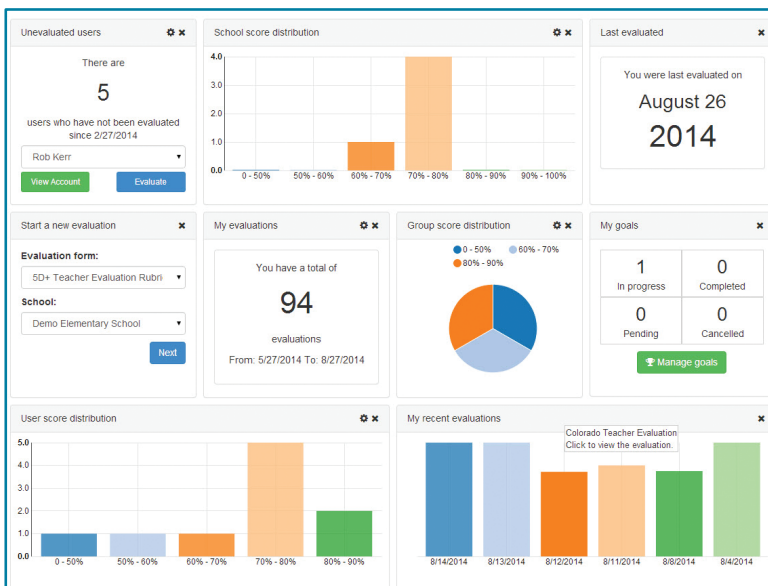

Rediker Software's **Teacher Evaluator** is a stand-alone classroom observation application that is optimized for the iPad® but works with any web browser. No matter what student information system you use or if you are a private school, public school, district or diocese, Teacher Evaluator has the tools you need to easily complete evaluations and increase teacher effectiveness.

- Comply with state mandated requirements.
- Identify strengths and needs.
- Raise professional standards and expectations.
- Streamline classroom walkthroughs and data entry.
- Improve the conversation between the evaluator and teacher.
- Set goals to track progress on growth and improvement.

### Simplify the Evaluation Process

*One major challenge that principals face is finding the time to complete evaluations on top of all the other tasks they must address on a daily basis. Use Teacher Evaluator to schedule and complete evaluations quickly and effectively.*

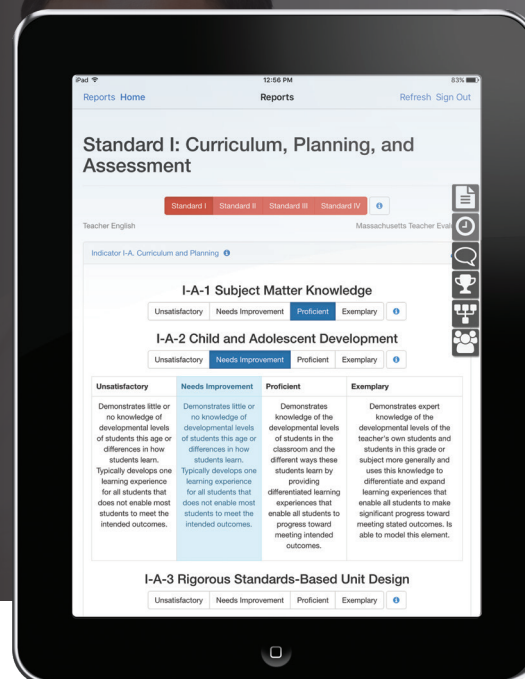

**Dashboard View:** At-a-glance graphical view of all data in real-time.

### Discover the Difference:

- ✓ State Mandated Rubrics
- ✓ Custom Form Builder
- ✓ Self Evaluator
- ✓ Evaluation Scheduler
- ✓ Real-Time Dashboards
- ✓ Built-In Reports
- ✓ Set and Track Goals

# Streamline Teacher Evaluations Inspire Professional Development

## Teacher Evaluator Features and Benefits:

Evaluating staff can be a challenging task for any school. Each school has a different approach with different requirements. Teacher Evaluator is designed with features to make evaluations fast and accurate.

### Built-In Form Builder with State Rubrics

Create your own evaluation forms or copy and edit a pre-existing form with the built-in form builder. Store multiple forms for different departments, grade levels and schools. Teacher Evaluator includes pre-loaded state mandated rubrics.

### Rating Scales, Goals and Improvement Plans

Enter custom rating scales or use state-mandated rating scales to easily spot your top performing and under performing teachers while identifying strengths and needs. Set goals and create improvement plans. Reference goals while reviewing evaluations.

### Real-Time Dashboards and Reports

Data is always at your fingertips with dashboards and reports that track and compare how your teachers are performing individually, by department and by school within a district or diocese. Use the Excel™ wizard to export data for state reporting.

### Evaluation Scheduler to Help Manage Your Day

Schedule evaluations and receive reminders on upcoming evaluations. Send your scheduled evaluations to your Google Calendar™, Outlook™ or iCal®.

### Improve Communication with Teachers

Observe a teacher doing something noteworthy? Quickly create a memo on the spot and have it sent to them via email. Once evaluations are completed, teachers are automatically notified via email and are provided a direct link to view their evaluation. Teachers can comment on evaluations based on reflection before or after completion and electronically sign evaluations. Furthermore, self evaluations can be conducted by teachers to encourage professional development. Tiered permission levels allow proper access for teachers, department heads and administrators.

### Track, Print and Add to Portfolios

Track multiple observations throughout the evaluation process. Print evaluations, create a PDF or add to the teacher's E-Portfolio if your school uses AdminPlus.
